DETAILED ACTION

1. This office action is in response to RCE, and amendment with response filed 12/29/03.

Allowable Subject Matter

2. Claims 1-13, 15-18 and 25-33 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims 1-13, 15-19 is the inclusion of a ground probe having a ground contact surface with a surface area substantially greater than the contact surface area of one signal probe tip for contacting another one of contact regions, wherein the ground contact surface is positioned between at least two of the signal probe tips in combination with the remaining claimed limitations.

The primary reason for allowance of the claims 25-28 is the inclusion of automatically introducing a test signal through the second test head contact into the electronic assembly in response to sensing electrical communication between the first test

head contact and the second conductive region, in combination with the remaining claimed limitations.

The primary reason for allowance of the claims 29-30 is the inclusion of adjusting the depth of the ground contact thereby positioning the overhanging portion of the ground probe a predetermined distance from the first signal port and establishing a predetermined impedance of the first signal port in combination with the remaining claimed limitations.

The primary reason for allowance of the claims 31-33 is the inclusion of changing at least one of the first and second conductive probes to enable the test head to establish second nominal characteristic impedance different from the first nominal characteristic impedance in combination with the remaining claimed limitations.
